

LEADING FOR RESULTS

Sixteen exceptional child health and well-being policy leaders worked toward improved results for children and families in their states as part of the **Children's Health Leadership Network**, which is funded by the Annie E. Casey Foundation, the David and Lucile Packard Foundation and The Atlantic Philanthropies. Here is a snapshot of the accomplishments achieved through their policy and advocacy efforts during the 16 months of the results-based leadership program, ending in April 2017.

- Ensuring Access to Health Coverage**
- Connecting Kids to Health and Wellness Services**
- Securing Funding for Programs and Treatment**
- Advocating for Expanded Coverage**

All 16 CHLN leaders educated policymakers and citizens on potential repercussions of federal proposals to repeal and replace the Affordable Care Act.

CALIFORNIA

A record-setting

97%

of kids have health coverage in California thanks to positive policy changes and successful enrollment and retention efforts.

Trained

10

community partners in San Diego County, California in a behavioral/ developmental curriculum so more children are developmentally ready for kindergarten.

Drafted and advanced legislation to use **\$30 million** in new state taxes for public school-based mental health programs in California.

ARIZONA
40,000 children gained access to health coverage after Arizona's Children's Health Insurance Program was restored.

NEBRASKA
Health insurance for **230,000** Nebraskans receiving Medicaid was preserved.

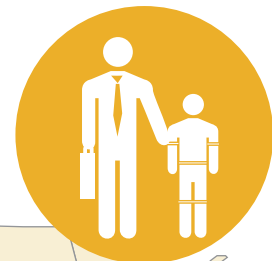

ALASKA
Up to **\$4 million** in new state funds will support afterschool programs.

ILLINOIS

New requirements mean

500,000

children in Illinois annually will receive developmental and social-emotional screenings as part of their school health examination.

NEW YORK

7,000

children and their caregivers were connected to critical social services.

10

PENNSYLVANIA

suburban and rural Republican decision makers targeted to protect health coverage for the 40 percent of Medicaid recipients in their districts who are children.

DISTRICT OF COLUMBIA

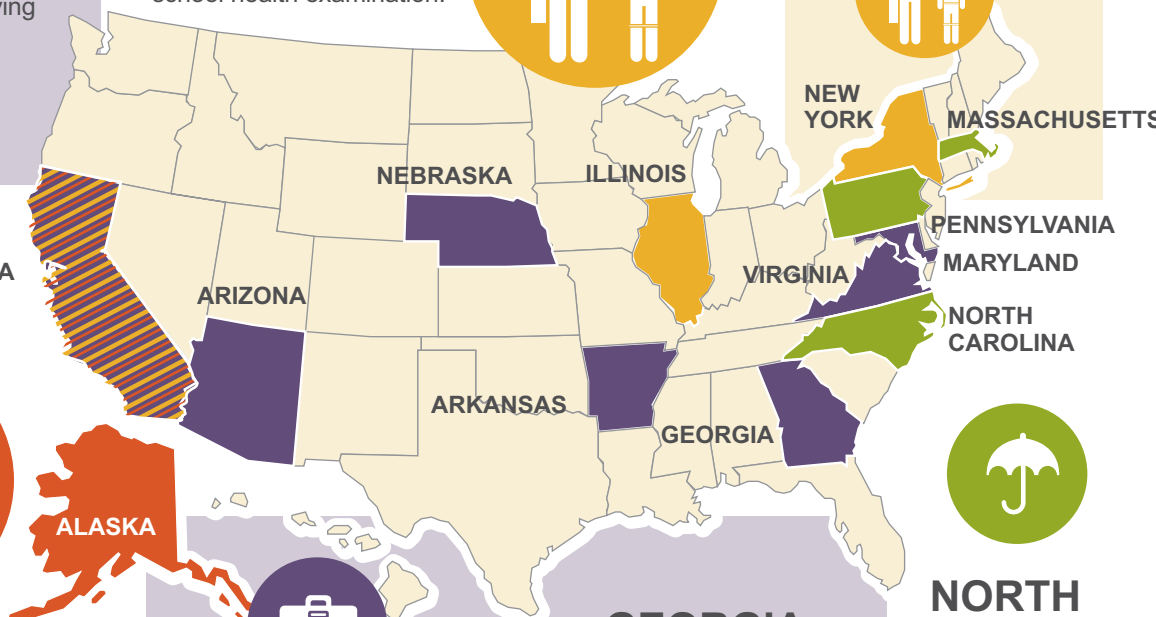

The school nurse program for **80,000** public school children in the District of Columbia will incorporate care coordinators and community health navigators.

MARYLAND
5,000

uninsured immigrant children in Maryland gained health care coverage.

VIRGINIA
\$32 million in new state funding dedicated to behavioral health and substance abuse treatment, which will directly serve at least 16,000 adults and children.

GEORGIA
154,000 uninsured children gained access to health coverage.

ARKANSAS
300,000 low-income adults in Arkansas will keep their coverage thanks to Medicaid expansion that passed under a Republican administration.

NORTH CAROLINA
Rallied behind **500,000** North Carolinians who lack eligibility for either subsidies under the Affordable Care Act or Medicaid, resulting in a bill to close the coverage gap.
